

Saviynt Intelligent Application Onboarding

Training Datasheet

Authored by: Saviynt University

Learning Path Overview

Saviynt Intelligent Application Onboarding learning path focuses on the end-to-end process of onboarding applications using Saviynt's Integration Onboarding Model, Application Discovery, Agent-based Onboarding, and Terraform automation. In this training, you will learn how to discover applications from CMDB sources, efficiently configure and onboard connected, disconnected, and hybrid applications, create connections, and automate provisioning and migrations using Terraform. This training is built on the latest version of the Saviynt Identity Cloud.

Learning Path Duration

- 2 hours of learning content
- 40% lecture and 60% demo

Target Audience

- Identity Security Consultants
- Application Owners
- Application Onboarding teams
- Consultants/Architects/Experts
- Managers/Administrators

Delivery Methods

- Self-Paced

Lab Environment

- This learning path has no labs

Prerequisites

- This training has no prerequisites.

Learning Path Objectives

This learning path enables you to achieve the following objectives:

- Review the end-to-end process and components of Application Onboarding in Saviynt Identity Cloud.
- Differentiate between connected, disconnected, and hybrid applications, and their respective onboarding methods.
- Perform application discovery from CMDB sources, like ServiceNow.
- Onboard Applications using Saviynt's Integration module using quick and advanced onboarding methods.
- Review key onboarding components, including Security Systems, Endpoints, and Connections, as an administrator.
- Implement and validate application onboarding using the Integration Agent for disconnected applications.
- Leverage Terraform to automate the creation, management, and migration of application objects across environments.
- Apply best practices to streamline onboarding workflows, ensure accuracy, and accelerate time-to-value through automation.

Courses and Modules

01 | Saviynt Overview and Course Introduction

- Module 1: Introduction to Application Onboarding
- Module 2: How to Onboard Applications in Saviynt
- Module 3: Application Discovery
- Module 4: Application Discovery - Demo
- Module 5: Connected Application Onboarding
- Module 6: Connected Application Onboarding - Demo
- Module 7: Disconnected Application Onboarding
- Module 8: Disconnected Application Onboarding - Demo
- Module 9: Integration Agent for Disconnected Applications - Overview
- Module 10: Integration Agent for Disconnected Applications Provisioning - Demo
- Module 11: Integration Agent for Disconnected Applications Configuration - Demo
- Module 12: Terraform Overview
- Module 13: Terraform Installation and Configuration - Demo
- Module 14: Terraform App Onboarding - Demo
- Module 15: Migration Using Terraform - Demo

Upon Training Completion

Saviynt will provide you with a training completion certificate after completion of this training. A sample of the certificate is shown below:
