

# Saviynt IGA Level 100 Training

## Training Datasheet

Authored by: Saviynt University

## Learning Path Overview

Saviynt IGA L100 training focuses on the core concepts and capabilities of the Saviynt IGA solutions. This learning path provides a comprehensive overview of key IGA features and functionalities in the Saviynt Identity Cloud, enabling learners to gain hands-on experience with the user interface, configuration options, and common administrative tasks. By highlighting real-world use cases, this training helps contextualize how Saviynt supports enterprise identity infrastructure. This training is built on the latest version of the Saviynt Identity Cloud.

### Learning Path Duration

- 24 hours of learning content
- 20% lecture, 30% demo, and 50% hands-on lab

### Target Audience

- IDM Consultants
- IDM Managers

### Delivery Methods

- Classroom (In-Person)
- Virtual Classroom (Live-Online)
- Onsite
- Self-Paced

### Lab Environment

- Hands-on labs are included as part of this training

### Prerequisites

- This training has no prerequisites.

# Learning Path Objectives

This learning path enables you to achieve the following objectives:

- Explain the core concepts of IGA and describe how Saviynt's Identity Cloud delivers enterprise transformation and key benefits.
- Demonstrate how Saviynt Identity Cloud enables Single Sign-On (SSO) and explain the process for implementing SSO.
- Identify various SAV Roles and differentiate their permissions.
- Configure user onboarding from HRMS and applications using connected and disconnected methods, including Agentic AI onboarding.
- Implement and customize the Access Request System, including approval of logic, email templates, trust scoring, and intelligent recommendations using Dynamic Peer Groups.
- Explain the concept and apply the principles of JITA (Just-in-Time Access).
- Utilize Identity Lifecycle Management (ILM) policies with Technical and User Update Rules to govern identity data.
- Implement certifications, trust modelling, and recommendations for certification.
- Explore user manager, entitlement owner, and application owner certifications.
- Perform Transport operations and navigate the Log Viewer efficiently to identify issues.
- Apply best practices and troubleshoot common issues using established techniques.

# Courses and Modules

## 01 | Saviynt Introduction

- About Saviynt
- Saviynt's Product Offerings

## 02 | Getting Started with IGA

- Introduction to IGA
- Saviynt Identity Cloud Architecture and Database Schema
- IGA Concepts and Terminologies
- Types of Applications
- Walkthrough of Saviynt Identity Cloud

## 03 | Identity Cloud Building Blocks

- Authentication Using SSO
- SSO Implementation for Okta
- SAV Roles Introduction
- Custom SAV Roles
- Methods to Add SAV Roles
- Certificate Management
- Best Practices and Troubleshooting

## 04 | Identity Management–Integration with HRMS

- Introduction to Import Users
- User Import
- User Import for Connected Applications
- User Import for Disconnected Applications
- Best Practices and Troubleshooting

## 05 | Intelligent Application Onboarding

- Introduction to Application Onboarding
- Application Discovery
- Connected Application Onboarding
- Disconnected Application Onboarding
- Integration Agent for Disconnected Applications
- Best Practices and Troubleshooting

## 06 | Access Request System

- Introduction to Access Request System
- Types of Access Requests
- Approval Logic – Configuration and Management
- Setting up Access Request for Applications
- Access Provisioning Using Saviynt Tasks
- Access Provisioning Using Saviynt Tasks - Demo
- Intelligent Recommendations Using Dynamic Peer Groups
- Recommendations in Access Request
- Email Notifications and Templates
- Introduction to JITA
- Best Practices and Troubleshooting

## **07 | Identity Life Cycle Policies (Rules)**

- Introduction to Policies
- Technical Rules
- Setting up Technical Rules
- User Update Rules
- Setting up User Update Rules
- Common Use Cases
- Best Practices and Troubleshooting

## **08 | Certifications**

- Certifications Overview
- Trust Modelling
- Recommendations in Certifications
- User Manager Access Review – Feature Overview
- User Manager Access Review – Configuration Overview
- Entitlement Owner Access Review – Feature Overview
- Entitlement Owner Access Review – Configuration Overview
- Application Owner Access Review – Feature Overview
- Application Owner Access Review – Configuration Overview
- Best Practices and Troubleshooting

## **09 | Saviynt Intelligence**

- Intelligence Overview
- Data Analyzer
- Types of Analytics
- Common Analytics Use Cases
- Introduction to ISPM
- Best Practices and Troubleshooting

## **10 | Admin Functions**

- Transport
- Log Viewer
- Best Practice and Troubleshooting

## Upon Training Completion

Saviynt will provide you with a training completion certificate after completion of this training. A sample of the certificate is shown below:
