

# Saviynt Intelligence Essentials Training

## Training Datasheet

Authored by: Saviynt University

## Learning Path Overview

Saviynt Intelligence Essentials self-paced training focuses on the core capabilities available under the Saviynt Intelligence umbrella. In this learning path, you will discover how Saviynt Intelligence brings clarity, control, and confidence to your security strategy, transforming the way you manage identities and access. The training will help you unravel the under-the-hood functionality and configure various intelligence features. This training is built on the latest version of the Saviynt Identity Cloud.

### Learning Path Duration

- 2 hours and 30 minutes of learning content
- 50% lecture and 50% demo

### Target Audience

- IDM Consultants
- IDM Managers

### Delivery Methods

- Self-Paced

### Lab Environment

- e-Learning content only

### Prerequisites

- Saviynt IGA Level 100 training or equivalent knowledge and administration experience with Saviynt products and features.

# Learning Path Objectives

This learning path enables you to achieve the following objectives:

- Understand the various intelligent features within Saviynt Intelligence.
- Gain insight into the concept and application of Duplicate Identity Management.
- Learn about Dynamic Peer Groups and their role in generating access recommendations.
- Discover how to use Dynamic Peer Groups to generate recommendations in access requests.
- Understand Trust Modeling, including how to set up a Trust Model.
- Learn to generate recommendations in certifications by leveraging Dynamic Peer Groups and Trust Modeling.
- Explore the concept of Role Mining and acquire the skills to create and modify mined roles within Saviynt.

# Courses and Modules

## 01 | Saviynt Intelligence

- Introduction to Saviynt Intelligence

## 02 | Duplicate Identity Management

- Duplicate Identity Management - Overview
- How Duplicate Identity Management Works
- Duplicate Identity Management during User Import
- Duplicate Identity Management during User Import - Demo
- Duplicate Identity Management via Job
- Duplicate Identity Management via Detective Job - Demo
- Best Practices and Troubleshooting

## 03 | Dynamic Peer Groups

- Introduction to Dynamic Peer Groups
- How to Configure Dynamic Peer Groups
- How to Configure Dynamic Peer Groups - Demo
- How to Generate Dynamic Peer Groups
- How to Generate Dynamic Peer Groups - Demo
- Measure efficacy of Dynamic Peer Groups

## 04 | Recommendations in Access Requests via Dynamic Peer Groups

- Recommendations in Access Requests
- Configure Recommendations in Access Requests
- Configure and View Recommendations in Access Requests - Demo

## **05 | Trust Modelling**

- Trust Modelling: Introduction
- Configurations for Setting up Trust Framework
- Configurations for Setting up Trust Framework - Demo

## **06 | Recommendations in Certifications via Dynamic Peer Groups and Trust Modelling**

- Recommendations in Access Review
- Configure Recommendations in Access Review
- Configure and View Recommendations in Access Review - Demo

## **07 | Role Intelligence**

- Role Mining - Overview
- Role Mining in Saviynt
- Role Lifecycle
- Create Roles using Role Mining
- Modify existing Roles from Workbench
- Mine Roles and Modify existing Roles from Workbench - Demo

## Upon Training Completion

Saviynt will provide you with a training completion certificate after completion of this training. A sample of the certificate is shown below:
