

Getting Started with Saviynt EIM – Quick Start Tutorials

Training Datasheet

Authored by: Saviynt University

Learning Path Overview

Getting Started with Saviynt EIM covers the basics of External Identity Management. This training equips you with the skills to manage the full lifecycle of Organizations in Saviynt Identity Cloud — from onboarding via multiple methods, updating and securing them, associating users, validating data, running ownership audits, to offboarding in compliance with governance protocols. This training is built on the latest version of the Saviynt Identity Cloud.

Learning Path Duration

- 1 hour and 30 minutes of learning content
- 40% lecture and 60% demo

Target Audience

- Beginners, New Hires

Delivery Methods

- Self-paced

Lab Environment

- e-Learning content only

Learning Path Objectives

This learning path empowers you to achieve the following objectives:

- Describe the concept and governance role of Organizations within Saviynt Identity Cloud.
- Onboard Organizations using multiple methods: Access Requests, Bulk Upload, and Connectors.
- Update and maintain Organizations using manual edits and Organization Update Rules.
- Apply security controls and provision Organizations to Active Directory.
- Associate users with Organizations through onboarding workflows and bulk upload methods.
- Validate organizational data using the Validation Framework and run Owner Campaigns for accountability.
- Audit and manage succession within Organizations using built-in compliance features.
- Offboard Organizations in alignment with governance and compliance practices.
