

Saviynt Identity Security Posture Management (ISPM) Fundamentals Training

Training Datasheet

Authored by: Saviynt University

Learning Path Overview

Saviynt Identity Security Posture Management (ISPM) Fundamentals training introduces you to Saviynt's AI-powered, Zero Trust-driven identity observability platform. You will explore how ISPM is built to centralize visibility across identity, access, risk, and compliance and transform identity data into actionable insights that drive proactive remediation and audit readiness. You will also discover how ISPM consolidates signals from across Saviynt modules to reveal hidden risks, strengthen data hygiene, and reduce your organization's attack surface. This training is built on the latest version of the Saviynt Identity Cloud.

Learning Path Duration

- 18 minutes of learning content
- 100% lecture

Target Audience

- IDM Consultants/Architects/Experts
- IDM Managers

Delivery Methods

- Self-paced

Lab Environment

- e-Learning content only

Prerequisites

- This training has no prerequisites.

Learning Path Objectives

This learning path enables you to meet the following objectives:

- Understand the business challenges and trends driving the need for Identity Security Posture Management.
- Explain the core principles and value proposition of Saviynt ISPM.
- Explore stakeholder expectations and how ISPM centralizes visibility across identity, access, and risk domains.
- Navigate ISPM's AI-powered dashboards to monitor identity posture, risk indicators, compliance metrics, and data hygiene.
- Utilize ISPM's powerful natural language Copilot (Savi) to generate insights, reports, and visualizations.
- Analyze actionable recommendations and gain proficiency in interpreting posture insights and trust scores.
- Understand how ISPM supports Zero Trust, reduces manual effort, improves audit readiness, and enhances security operations.
- Perform hands-on walkthroughs and demos of key ISPM features, including dashboards, access path, user timeline, low trust detection, and posture index (planned release).
