

Introduction to Converged Identity

Training Datasheet

Authored by: Saviynt University

Course Overview

Introduction to Converged Identity is exclusively tailored for sales leaders, managers, and pivotal decision-makers within the Saviynt partner network. This course will familiarize you with Saviynt's History and its road to Market Leadership. You will learn about the Company's founders and the vision behind a converged platform.

The course will introduce you to Saviynt's converged platform, **Saviynt Identity Cloud**, and its components, including the building blocks for IGA, PAM, External, and AAG. It also walks you through Saviynt Identity Cloud Architecture and various deployment models.

You will gain an understanding of the Saviynt Release Cycle, Exchange platform, and key market differentiators.

Course Duration

- 1.5 CPE hours of on-demand video content
